HORRORS OF THE CYCLONE.

Five Hundred Lives Lost in Ponce and Famine Follows Death.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SAN JUAN, P. R., Aug. 11.—It is now said that 500 persons lost their lives at Ponce during the hurricane. Terrible distress prevails there. Arroyo, on the south coast, has been destroyed. Sixteen lives were lost there, and the town is still submerged in water.

At Guayama houses are still standing. Seven persons were killed there. A number of houses were pillaged, squads of soldiers were unable to maintain order, and starvation threatens the population. The water supply of San Juan has been stopped. The Coamo Springs Hotel has been wrecked. It belongs to the Porto Rico Company of Philadelphia.

FLORIDA AGAIN IN PERIL.

WASHINGTON, Aug. 11.—The Weather Bureau issues the following:

11:40 A. M.—Hurricane center apparently approaching Nassau, Bahamas. Storm will increase in intensity upon reaching the Gulf Stream and will probably reach the south Atlantic coast towns of the United States tonight.

WILLIAMS, Acting Chief Weather Bureau, FAMINE'S HORRORS ADDED.

WASHINGTON, Aug. 11.—The War Department received a cablegram from General Davis, giving full details of the damage done in Porto Rico by the hurricane.

General Davis says a famine is impending, and asks authority to issue rations to the destitute. The message is dated yesterday, and says:

"Later reports show that the hurricane was far more severe in the interior and southern part of the island than here. Data for estimate of number of Porto Ricans who have lost everything is deficient, but I am forced to believe the number on the island cannot fall below 100,000 souls, and a famine is impending. I ask that two and one-half million pounds of rice and beans, equal quantities of each, be immediately shipped on transports to Ponce. Some here. Urgent appeals to all post commanders for food for the destitute. I am authorized to relieve distress by food issues. Rice and beans only desired."

"There have been many deaths of natives by falling walls. So far only one soldier reported dangerously injured. Several towns reported entirely demolished. As yet, however, reports from only parts. Complete destruction of all barracks at two points, and two others on company of each had barracks destroyed. Troops are in canvas. No reports yet from the largest posts, Ponce and Mayaguez, but they were in the vortex of the storm. At least half of the people of Porto Rico subsist entirely on fruit and vegetables, and storm has entirely destroyed this source of support."

AID FOR THE DESTITUTE.

The War Department has taken prompt action on General Davis' report.

The army transport McArthur has been ordered to sail from New York to San Juan and Ponce next Monday with supplies to relieve the destitute in Porto Rico. Acting Commissioner General Weston has ordered the purchase in New York of 600,000 pounds of rice and 600,000 pounds of beans to be shipped to the McArthur. Such other food supplies as may be obtained at the time the McArthur sails will be sent on that ship.

A PITIFUL APPEAL.

The following dispatch addressed to

TREASON

Colonel Henry Is Accused by the London Times.

Associated Press Dispatches by The Tribune's Special Leased Wire.

REYNOLDS, Aug. 11.—The London Times' statement this morning of the late lieutenant Henry's treason caused considerable sensation here and was much discussed among newspaper men and all those interested in the trial.

The affirmation of Henry that Esterhazy was his accomplice is only a confirmation of what has already many times been stated. But what was regarded as important is the fact that the Times announced it in such categorical terms, demonstrating according to the views of the friends of Dreyfus here that the Times people have actually seen documents submitted to them by more than one foreign military attaché, presenting the strongest proof of Henry's guilt and moreover that this announcement can only preclude the publication of the actual documents by the Times.

The correspondent here of the Associated Press, spoke to Major Forzinetti, who was governor of Cherche Midt prison during Dreyfus' incarceration there and who was cashiered on account of his declarations favorable to Dreyfus' attitude while in prison. Forzinetti said: "The Times statement confirms my own view. I was convinced of Henry's complicity from the very first, and always regarded him as the real culprit."

Regarding the court martial he said: "Tomorrow will undoubtedly be the most important day of the whole proceedings, as General Mercier and M. Combe-Parler, former president of France, if they admit, will be confronted and a most dramatic scene is inevitable, as their declarations in certain matters differ on essential points."

EVANGELIST SANKEY DRAWS A CROWD TO PRAY IN THE RAIN.

NEW YORK, July 28.—Rain does not chill the enthusiasm of the hundreds who fill the Gospel Tent services.

Roused to the highest pitch by the singing of Ira D. Sankey, the gathering joined in, and all the afternoon the rendering of the old, evangelical hymns went on in spite of the disagreeable weather. Mr. Sankey selected such familiar hymns as "How Firm the Foundation," "If I Were a Voice," "Ninety and Nine," and "Under His Wings."

The Rev. Francis E. Clark, founder of the Christian Endeavor Society, delivered the sermon of the day.

AGAINST SALE OF THE PARK.

Mayor Will Not Favor Mott's Plan for New City Hall.

Next Monday night, Mayor Snow will send a message to the City Council based upon the present financial condition and future needs of this city. A great deal of speculation has been indulged in as to the contents of the message, but it is generally believed that it will advance no ideas which have not recently been expressed by the Mayor on the question before the people.

CONDITION OF OAKLAND.

The Mayor will review the condition of Oakland during the past three months and in a special manner the debt, which the present Council inherited. He will talk about prosperity and the assessment.

It is understood that he will commend the dollar tax levy and hold that it must be lived up to and that the city cannot only maintain its departments but can move forward under it.

BOND ELECTION.

He will devote a considerable amount of attention to public "betterments" in all departments, and endeavor to suggest some manner by means of which an appropriation may be obtained for the holding of a bond election, for which no provision has been made in the Auditor's estimate.

WATER SUPPLY.

It is also understood that the message will refer to a municipal supply of water, of which he is in favor under a system which shall be practical, permanent and economical.

AGAINST SELLING PROPERTY.

With regard to the question of a new City Hall, it is believed that the Mayor will not be in sympathy with Mr. Mott's idea. In fact it cannot be understood how he will be able to agree with Mr. Mott in the matter of the sale of the City Hall park, because, in his speech in Hamilton Hall before election he very plainly stated that he was not in favor of selling the City Hall park at the present time.

THE LICENSE.

With respect to the matter of raising the revenue of the city by imposing a license fee upon merchants, the Mayor said today that he had been quoted as in favor of such a proposition, but that he had never suggested the establishment of a merchants' license and that he would not sign such a license if it were presented to him for his signature.

CONVENTION OF BANKERS.

Giant Clearing House Will Probably Be Established.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CHICAGO, Aug. 11.—The Evening Post says today:

A giant clearing house to ascertain the credit of merchants and business establishments all over the country for the benefit of the banks of the United States, and uniform laws governing the charges for collecting checks are achievements for which leading bankers of this city and the East will work at the convention of the American Bankers' Association to be held at Cleveland September 8th, 6th and 7th.

In point of interest and attendance the coming meeting of bankers promises to eclipse all previous meetings. Steps are being taken to give the banking interests of the country a clearing house from which every member may ascertain the credit and solvency of patrons who wish to obtain credit from the banks. New York City has been decided upon as the location for this exchange. But the system will be so extensive that bankers all over the country may take advantage of it.

REV. W. H. MILBURN, SENATE CHAPLAIN, STRICKEN BY HEAT IN NEBRASKA.

LINCOLN, Neb., Aug. 11.—Rev. William Henry Milburn, chaplain of the United States Senate, was prostrated by the heat while delivering a lecture before the Epworth Assembly in this city last week. He was weak and a fainting attack overcame him the next morning and he was compelled to request a release from his engagement with the assembly before the Epworth Assembly in this city which was readily granted.

REBELS AGAIN ON THE RUN.

American Troops Take Possession of More Towns.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 11.—General Otis called the War Department today as follows:

"MANILA, Aug. 11.—Adjutant General, Washington. MacArthur has taken possession of Santa Rita, reconquered Davao, Angeles and other points. Insurgents driven north. One casualty yesterday, none today. Conditions are making movement troops difficult, but considered necessary to open up this section country as it virtually gives control of province of Bataan and relieves inhabitants there."

"OTIS."

REBELS ON THE RUN.

MANILA, Aug. 11, (3:35 P. M.)—Reconquering by small parties continues. Unwilling attempts made to get in contact with the enemy. The American troops occupy Calicut, Santa Rita, Bacolor and Guagua. No further engagements have taken place. The rains have recommenced. The conditions are being brought to Manila. The United States transport Para from San Francisco, via Honolulu, has arrived here.

NEWS OF MAJOR ROCKEFELLER.

WASHINGTON, Aug. 11.—The following cablegram has been received from General Otis:

"MANILA, Aug. 11.—Adjutant General, Washington. From southern Luzon report comes that American officer held there prisoner and description given indicates Major Rockefeller."

Major Rockefeller is the officer who disappeared several months ago shortly after his arrival in the Philippines, and nothing has been heard of him since.

THE SHERIDAN SAILS.

WASHINGTON, Aug. 11.—General Otis today called the War Department as follows:

"MANILA, Aug. 11.—City of Para arrived. Private Cowley Reed, 21st, died at sea. Sheridan sails today."

The City of Para sailed from San Francisco July 13th, with B and D. Fourth Cavalry, Headquarters A, F, H and K, Twenty-fourth Infantry, and D, Engineer Battalion, thirty-six officers and 511 enlisted men. General Schwan commanding. The Sheridan will bring back the Minnesota and South Dakota troops.

BOERS TO RUIN JOHANNESBURG.

They Threaten to Blow Up the Mines in the Event of Hostilities.

Associated Press Dispatches by The Tribune's Special Leased Wire.

LONDON, Aug. 11.—The Boer organ in London, the Standard and Digger's News, today publishes a Johannesburg dispatch threatening Great Britain. In the event of war, saying the Boers are determined to wreck the mines and irretrievably ruin the general body of share holders by blowing up millions worth of machinery, adding that war will mean absolute ruin of Johannesburg, such as a ruin and as a mining center, and saying:

A COSTLY VICTORY.

"While it will doubtless end in a victory for England, the price of that victory will be the ruin of thousands who ought to consider the price they must pay before authorizing the government to declare war."

FURTHER CONCESSIONS.

Another Johannesburg dispatch predicts further concessions and says:

"The reply of the Transvaal to the proposal for a joint inquiry is being delayed until the government has prepared a scheme granting the Outlanders the same and substantial representation, as the Transvaal will make every effort to avert intervention in the internal affairs of the country."

WAR STORES FOR THE BOERS.

LORREZO MARQUES, Delagoa Bay, Aug. 11.—The German East African steamer Reichstag has arrived here from Hamburg, Naples and Mombasa with 40 cases of cartridges and other war stores for the Transvaal.

BRITISH TROOPS FOR AFRICA.

BOMBAY, Aug. 11.—Preparations are about completed for the dispatch of 12,000 troops to South Africa. A number of transports are in readiness in Indian waters and in the event of war troops will be embarked simultaneously here, at Karachi and at Calcutta.

Cuban Editors Ask Damages.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 11.—The editors of the Havana newspaper, El Reconocimiento, which was recently suppressed by the United States military authorities in Cuba, have employed an attorney in Washington to press their claim to pay for damages and also that their rights shall be determined in the civil courts.

Storms Work in Michigan.

Associated Press Dispatches by The Tribune's Special Leased Wire.

BESSMER, Mich., Aug. 11.—A fierce wind and rain storm last night tore the roof from the electric light plant, destroyed several business houses and moved about twenty-five dwellings and the opera house from their foundations. The mines are all closed down for want of light.

PLANS FOR CUBAN MILITIA

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 11.—General Carlos Garcia of Cuba was engaged today in the presentation to army officers of plans for the Cuban militia. He had a long conference with the General with General Miles. The plan is to organize several regiments from the soldiers who fought for Cuban independence and what shall constitute a national guard and at the same time perform duties similar to those of the performance of European countries. He thinks the force could be utilized to maintain order and relieve many of the American soldiers. It could be classed as a part of the auxiliary force authorized by the last Congress, but the intention is that it shall be officered by Cubans and paid out of the Cuban revenues.

So far as he has been able to present the plan among officials in this city, General Garcia says he has received encouragement.

ST. JOHN'S TALK IGNORED

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 11.—It is said at the State Department that the attention of the department has not been called to the reported criticism by Lieutenant St. John concerning the military methods of General Otis. The authorities here are disposed to treat the matter as trivial and not worthy of attention, and the State Department will not act unless asked to do so from some other official quarter, and there has been no such request thus far.

Female Physician Dead.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CHICAGO, Aug. 11.—Dr. Maria M. Gross the second woman to practice medicine in Chicago, and for many years the oldest woman physician in point of practice in the city, died today after a long illness. She was born in Elmira, N. Y., in March, 1822, and came to Chicago in 1838.

Catholic Abstainers Adjourn.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CHICAGO, Aug. 11.—The final meeting of the delegates of the National Convention of the Catholic Total Abstinence Union was held today. A discussion as to the best method of waging war against saloons occupied the session.

WAS AFRAID OF BEING MURDERED.

Mrs. Lange Tells the Story of Her Troubles to the Court.

The hearing of the divorce proceedings of Elizabeth Lange against Theodore Lange occupied the attention of Judge Elsworth this morning.

Mrs. Lange alleged cruelty as the ground of her action. She claimed that her husband beat her and mistreated her so that she cannot longer live with him. She was born in Elmira, N. Y., in March, 1822, and came to Chicago in 1838.

From her testimony it appears that the couple were married thirteen years ago. For a number of years they lived together in Lorin, where they kept chickens and sold milk. Soon their happiness began to be marred by exhibitions of violent temper on the part of her husband.

Threats were followed by blows, and Mrs. Lange began to live in daily fear of her husband. One day he came into the kitchen and inquired why dinner was not ready. Mrs. Lange said that she would have it on the table in a few minutes.

"Put it on at once," yelled the husband.

"But it is not quite ready," responded Mrs. Lange.

"Don't talk back to me," cried the husband, seizing a carpenter's hammer. "I will brain you if you say another word."

Mrs. Lange testified that her husband then choked her with one hand and hit

TEACHINGS AT HOME OF TRUTH

Two Young Boys are Arrested on a Serious Charge.

ALAMEDA, Aug. 11.—Miss Lucie G. Beckham delivered the following interesting sermon at the Home of Truth, "Be not overcome of evil, but overcome evil with good." The subject was "The Home of Truth." The sermon was very timely and instructive. The Home of Truth is a place where the teachings of the Bible are given in a simple and plain manner. It is a place where the people can come and hear the word of God. The Home of Truth is a place where the people can come and hear the word of God. Postal Officials Rush Gold Seekers Who Were Left Stranded in the North.

Associated Press Dispatches by The Tribune's Special Leased Wire. ST. LOUIS, Aug. 11.—I am for Bryan for President. I have always been for him and expect to remain so. I think there is not a shadow of doubt about his nomination by the next Democratic National Convention. This statement was made by Vice-Chairman W. J. Stone of the National Democratic Committee today, when he was asked about reports from Washington that he was preparing to endorse Bryan and take up Rear Admiral Schley as a candidate for the Democratic nomination. Mr. Stone further said: "I have never heard Schley's name mentioned as a possible candidate for President, except in newspaper gossip. I never thought this was serious, and do not think the last report is any more serious than the others. I have never thought of Schley as anything but a huge naval officer. The statement of my endorsing Bryan is all that I am for Bryan." Speaking of the Democratic conference, reported as being held at Saratoga, Mr. Stone said: "I don't believe the conference amount to anything. This talk about them is nonsense."

Over two hundred million dollars in gold coin is piled up in the Treasury vaults at Washington. No wonder the Democratic party are itching to be in office again.

An English Judge has decided that a reporter has a copyright in his work and that it is acquired by the paper for which he works. This is not only common law, but common sense, and it ought to be extensively applied to the pirates who infest this country.

The Brewers' Protective Association has given \$1,000 to the Volunteers' reception fund. It is not right to impugn such good-heartedness in any way, but somehow it savors of a donation by the railroads and hotels when it is proposed to run a big excursion into town.

The burglar who called at a Berkeley residence three times in as many nights evidently wanted to disprove the old theory that lightning does not hit the same place twice. The fact that he did not appear the fourth night is resulting in some half-played being regarded with suspicion. Such conduct savors of habits built upon the principle of "three strikes and out."

Oakland's street system is being called to the attention of the whole country by the Engineering News, which commends the proposed methods very highly. The least we can do is to try to live up to our reputation, and the only way this is possible is by making liberal allowances for repairs, re-surfacing and other improvements. The wheels of progress will never turn very rapidly on badly-kept highways.

There might after all be some excuse for the bootlick who was refused citizenship by Judge Hall because he could not answer the question, who makes the laws in this country? It is true that the legislators and Congressmen have the semblance of doing so, but in a great many instances they are but the agents of individuals with private axes to grind, or influences that remain unobserved in the background.

AMERICA AND TRANSVAAL.

Despite all the assurances that the war cloud would blow over the Transvaal, the indications have become more ominous than ever that the long-anticipated crisis is at hand. Minister Chamberlain's pointed allusion to the situation, the undertone in the Queen's speech regarding Parliament and the preparations for the immediate shipment to the Cape of Great Hope of a heavy armed force—these are all indications that the olive branch of peace has been laid aside and that in its place the crimson flag of war is about to be waved on high. America is directly interested in the outcome, and it is perhaps unnecessary to say that our sympathies are entirely with England in the matter. They would not be otherwise in the face of the fact that a large percentage of the Transvaal, where protests against the tyrannical treatment to which they are subjected have brought about the present complications, consists of American citizens. This was well illustrated at the time of the Jameson raid, four or five years ago, for among the foreigners arrested and charged with high treason were many well-known Californians, Alameda county contributing three of the number in the persons of John Hays Hammond, Captain Meln and Henry Butters.

Another reason why our sympathies are with Great Britain in the struggle is because the Transvaal, although ostensibly a republic, is in reality the headquarters of one of the most tyrannical forms of government in the world. Rigid, unprogressive, greedy, cruel and unjust, the Boers seem to have applied themselves to but one aim, that of squeezing every possible dollar out of those who have come into their midst and developed their country into the wondrous treasure land it is today. The dawn of the twentieth century does not find such conditions possible, and for the past few years it has only been a question of just when the blow would be struck that would replace tyranny and oppression with freedom and liberty. The eventual hour is evidently at hand, for it is certain that either war will ensue or that the Boers themselves will tear down the barriers with which they hoped to stem the march of progressive civilization.

A PEST TO BE FOUGHT.

Just as the viticultural interests of California have reached an up-grade it is disheartening to hear that the dreaded phylloxera has again put in an appearance and is raging with increased violence in a number of localities, especially in the Santa Clara valley. The advice tell of vineyards being uprooted and planted with grapes by farmers who have despaired of conquering the aggressive vine pest, and so alarming a view of the situation is taken that the secretary of the Board of Trade is credited with saying that it will be a matter of only about four years before all the vines not on resistant stocks will be destroyed.

This can, however, be set down as an exaggerated view and one not justified by the premises. At the time the scale bug first put in an appearance in our California orange groves, there were hosts of predictions that but a few years would elapse ere every orange tree in the State would be cut down; yet all these prophecies proved false, for the scale bug was conquered and today our orchards are the scene of many in the world.

So it will be with the vineyards. Science will defeat the foe that is now doing such damage, and the grape-growers should not even think of abandoning their ranches, but should instead give battle to the pest and drive it forth. The University at Berkeley can lend valuable aid to those whose vines are afflicted, and there should be no hesitancy about seeking advice and assistance in that quarter. The phylloxera has by no means got the upper hand in California, nor is it likely to if the proper precautions are taken and the right kind of fight made against it.

Kentuckians are lamenting their inability to entertain Dewey, because the press dispatches announce that he consumes his drinks to tea and coffee. They have, however, taken a little heart since the Admiral denied the New York Herald's alleged interview with him about Germany, and Henry Watterson, in the Louisville Courier-Journal expresses the belief that the "amazing newspaper reports" about his forms of beverage will also be refuted later.

The United States Industrial Commission reports that immigrants who come here to work for short periods take away from the country annually \$20,000,000. It is a good thing that their visits are so brief, for otherwise it looks as if they would come nightly near gathering in all the money we have on tap.

A Bulletin special says that Schley will probably be Tammany's candidate for President. If he accepts the nomination we will have to begin doubting whether he really is entitled to the credit of the Santiago victory, for a fool could certainly not have won that engagement.

The Chronicle's dispatches announce that General de Gailly, the new French Minister of War, carries shops for more than four hours a night. That old joke is in order, that he probably does a good deal of his sleeping in the daytime.

A Connecticut man has lost \$100,000 in his will prove that the human soul is not immortal. Who is going to decide? It is to be hoped that somebody will, for it would be a pity not to have that million dollar ghost walk.

PROF. BURKE TALKS TO THE TEACHERS.

Professor Burke, principal of the San Francisco Normal School, lectured to the teachers of Oakland yesterday on the "Growth of the Brain." Mr. Burke maintains that recent study has overturned the theories advanced by the ancients. He says the human brain has reached its normal size at the age of eight years. He denies the reasoning part of the brain in the upper part of the head and acknowledges that the students' energies in severe mental work until this part is sufficiently developed to stand the strain.

SEMINARY WILL GO TO BERKELEY

The Pacific Theological Seminary of Oregon will not be able to remove to Berkeley in the coming academic year. The sale of the property on Edwards street was not made as expected and as a consequence the Junior and senior classes will continue to work in the old location. The Freshman class, however, will be accommodated at Berkeley.

NEXT CONFERENCE FOR OAKLAND.

Oakland has been selected as the next place for the annual conference of the African M. E. Church. The first annual session is now in progress at Berkeley. A. M. E. Church in San Francisco, Bishop Wesley John Gaines, D. D. of Georgia, is presiding. Bishop Gaines was born a slave. He is a man of strong personality and fine intellect.

LETTER CARRIER IS ARRESTED.

W. H. Conner, a letter carrier, was arrested this morning at the instance of Agent Kennedy of the Society for the Prevention of Cruelty to Animals. Conner says that the horse which he was driving and to which he was cruelly attached to have been done was an animal which he had hired in a livery stable.

THE ROUNDER.

It appears to me as though the City Council has some important matters on hand at present. The proposed purchase of the Robert's' walls at San Leandro is a matter that will provide a great deal of discussion. Councilman Mott's proposition to sell a section of the City Hall Park is already being discussed. I think these two matters will make things very lively in the Council.

Treasurer and Tax Collector Gilpin hires a number of extra clerks at this season of the year. It will be remembered that there was a lively debate in the Council as to whether the clerks should be paid \$100 or \$75 a month. It was finally decided to pay them \$75 a month. Since the order went into effect I have not heard of any of the clerks resigning their positions.

Edward F. Cahill, the brilliant writer, promises some good stories in his letter to THE TRIBUNE tomorrow. Cahill is well known in this city, and hence his letter is always interesting. At one time he was a prominent member of the Athenian Club.

Superintendent McClelland's new proposition regarding the promotion of pupils is creating a great deal of favorable talk among the educators. By the way, I have heard it stated that R. B. S. York is one of the best Assistant Superintendents that has ever graced the City Hall. The books of the department are kept; the best of any in the city.

I guess Assessor Henry P. Dalton will have to go to Sacramento to make his fight against Controller Colgan to retain those poll tax fees. Henry will certainly have a good fight on his hand, for Colgan is known as a man who stays by the works. The case will surely go to the Supreme Court for a decision.

Clarence Crowell of the Nile Club is said to be the best dressed young man in Oakland. They tell me that he receives advance sheets of the styles from a tailor in New York. Anyhow, Clarence wears the latest thing in style before his neighbors.

The Rouser.
Many a man with his whole soul immersed in business and money-getting is like the miser whose spring door shut and locked him in forever. Men work and slave and worry and get sick and broken down, forgetting all the time that health is worth more than gold, and that a happy home is rather than great riches, untrapped to and shut them off from all the bright hopes they labored for.

A sick man cannot be happy; he cannot accomplish the work he has to do in this world; he loses the very money he is striving to obtain by his own efforts. Any man who discovers that his strength and energy are giving way has an unailing means of regaining his physical health and stamina in the simple yet all-potent restorative power of that wonderful "Golden Medical Discovery" originated by Dr. R. V. Pierce, of Buffalo, N. Y., the world-famous specialist in diseases of the nutritive organism.

Among the thousands who have consulted him by mail the case of Mr. Newton B. Blake, of Appleton, Wis., is shown in the following letter indicating the remarkable efficacy of his treatment: "In December 1895 my health began to fail. I felt very nervous, and my head ached. I tried to work, but I could not hold out to work one hour. My breath became short and I was weak and nervous, and sometimes would spit blood. I was unable to work. I tried one of the doctors in the vicinity but failed to obtain relief. I seemed to grow worse. My father received a book from Dr. Pierce in which I read of a case similar to mine, and decided to write to Dr. Pierce. He soon sent me to take his Golden Medical Discovery. After taking six bottles of this remedy I can recommend it as one of the best medicines to build up the system. I am now enjoying good health."

Torpid liver and constipation are surely and speedily cured by Dr. Pierce's Pleasant Pellets. They never gripe, they regulate the bowels and invigorate the liver, stomach and bowels. No substitute urged by mercenary dealers is as good.

DREDGING OF LAKE MERRITT.

Parties Interested Will Be Heard Tuesday Night.

At the meeting of the Board of Public Works this morning Messrs. Snow and Clement were present.

The matter of authorizing the board to bring in the names of streets which should be planted with trees was referred to the Mayor.

In the matter of public parks, the Mayor said that he was somewhat dissatisfied with their condition. The grass was tall and overgrown with oxalis.

Mr. Clement spoke about the necessity of having the park with raised centers, and suggested re-grading.

The question of putting water pipes in public squares for irrigation purposes was laid over.

The report of the Superintendent of Streets for the closing up of part of the park around Lafayette square and cutting the roots of trees was referred to the Committee of the Whole.

The resolution of Mr. Mott regarding the building of piers on the western wharf front was referred to the Committee of the Whole.

In the matter of water mains in Golden Gate, the subject was laid over until a map can be prepared on the subject.

L. W. Posing of the Twenty-third Avenue Improvement Club said that that organization desired to suggest to the Council in building new gates for Lake Merritt to place them at Eighth street instead of at Twelfth street bridge.

He said that that would avoid a stretch of mud flat between the Twelfth street and adjoining the park when the tide was out.

The matter was referred back without recommendation.

Messrs. Snow and Clement seemed to be in favor of concluding the work of dredging the lake and filling the proposed park according to the present plans.

Contractor Peterson asked that haste be made in the matter of letting the contract for dredging.

The matter will be discussed at a meeting of the committee Tuesday night, when citizens will be at liberty to express their views as to where they think the gates of Lake Merritt ought to be located.

ANOTHER NEGRO LYNCHED.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW ORLEANS, Aug. 11.—News of a lynching in Grant Parish, La., has been brought out through the finding of a negro's mutilated body in the bayou. The victim was Max Singleton, who some days ago went to the house of O. V. Boyett, a planter and asked food of Mrs. Boyett, who was alone. She brought some food to the front gate, when Singleton arrested her to carry it for him across the road. Mrs. Boyett immediately ran into the field where her husband was at work. The details of the pursuit of the negro, his capture and execution are very meagre.

Man With Paresis Not a Subject for State Charge.

J. M. Bryan, a young mill hand from Davis, Fresno county, was denied admittance to a State Insane Asylum this morning.

Bryan came to this city Saturday with his mother. He had been suffering for some months from loss of memory and a weak mental condition.

Mrs. Bryan brought him to this city for treatment and then decided to send her son to an insane asylum.

Bryan was examined by Drs. Tidwell and Wakefield. They found him suffering from paresis. On this showing the board declined to sign the order for commitment. Bryan is 27 years of age. He has a wife and baby at Davis. He was stricken with paresis about a year ago and has not been strong since.

NO EXPOSITION TO BE HELD THIS YEAR.

Though the directors have made no formal announcement as yet, still it is known there will be no exposition in Oakland this year. The failure of last year's show is too recent in the public mind to make it advisable to hold one this year.

Crangle Sharp is entertaining big ideas, however, for next year's exposition. He thinks a large new building can be secured to take the place of the old Tabernacle, and has been the scene of all previous exhibitions. He relies on the need that will be generally felt next year, presidential year, for a big building for political meetings to make the new building more possible.

The Oakland exposition was inaugurated about five years ago and has had three very successful shows to which the directors intend to add one more, next year.
